

LifeCycle[™]

ECO-FRIENDLY DECKING

make the
great outdoors
even greater.

The LifeCycle[®] Difference

When it comes to home improvement, today's homeowners have high expectations. Decks and outdoor living spaces are no exception. With LifeCycle[®] composite decking and railing, you will enjoy a beautiful and long-lasting deck that is environmentally responsible.

LifeCycle materials are available in multiple colors that can be combined for a nearly endless array of designs. Plus, the deck planks and rails can be shaped into curves for unique patterns and highlights. Matching posts and post caps provide a consistent, high-quality look.

Because they contain high amounts of recycled content, LifeCycle decking and railing is easy on the environment. The materials contain a minimum 95% recycled plastic and wood fiber – 38% post-consumer recycled content and 57% pre-consumer recycled content – and help reduce waste going to landfills.

A photograph of a modern outdoor deck. In the foreground, there is a hot tub with bubbling water. The deck is made of light-colored composite decking. In the background, there is a second level of the deck with a railing and a yellow lounge chair. The scene is surrounded by lush greenery and trees.

Creating the ideal
environment with the
environment in mind.

Composite Decking and Railing Advantages

LifeCycle® decking and railing is an advanced building product made using the latest technologies. The material is a combination of recycled wood fibers totally encapsulated within recycled polyethylene plastic. The result is a durable, water-resistant product that can be placed directly on the ground (unlike many other products, such as untreated wood and other composite decking). And, LifeCycle products resist rot, decay and termite damage; will not warp or twist; and do not require painting or staining. Builders and homeowners have trusted LifeCycle decking and railing for more than 20 years. In that time, the products have not had a single incidence of failure. In fact, we are so confident in LifeCycle products we provide a 25-year limited warranty.

The manufacturing process and pigments in LifeCycle decking and railing help the materials retain their rich color, unlike other composites that weather to a greater degree. The addition of extra pigments means the materials weather slightly to more natural shades within the first six months after installation.

Choose LifeCycle materials and you will have more time to enjoy your deck, and the peace of mind that it will last for years to come.

A Wide Range of Products to Meet Your Unique Tastes and Needs

LifeCycle® products come in a range of styles and components that can create a distinctive deck to complement your home. Featuring a deep-embossed wood grain texture on both sides, LifeCycle products have the beauty of natural wood decking. LifeCycle deck boards can be attached with screws, or are available with grooves to accommodate hidden fastening systems.

Products

Essential Collection™

The Essential Collection™ is the perfect decking product for homeowners looking for an affordable alternative to pressure-treated lumber.

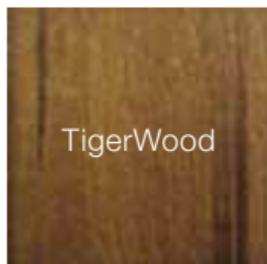

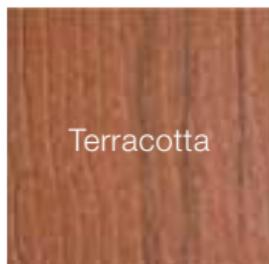

Specifications for the Essential Collection

Size: 1" x 5" (2.54 x 12.70 cm)

Actual Dimensions: 1.0" x 5.0" (2.54 x 12.70 cm)

Lengths: 8, 12, 16 and 20 feet (2.40, 3.66, 4.88 and 6.10 m)

Essential Collection Available in six colors:

Vantage Collection™

Balancing performance and cost, Vantage Collection™ decking boards are wider for enhanced stiffness and durability.

Specifications for the Vantage Collection

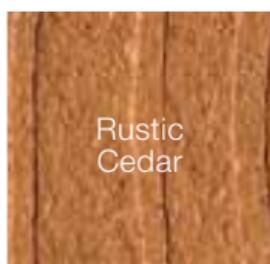

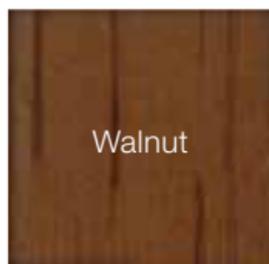

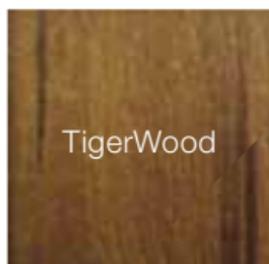

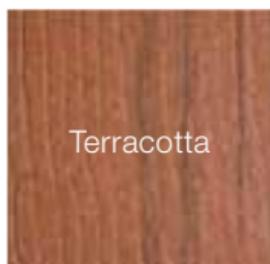

Size: 1" x 6" (2.54 x 15.24 cm)

Actual Dimensions: 1.0" x 5.5" (2.54 x 13.97 cm)

Lengths: 8, 12, 16 and 20 feet (2.40, 3.66, 4.88 and 6.10 m)

Vantage Collection Available in eight colors:

EcoShield™ Deck Tiles

EcoShield™ Deck Tiles – an innovative composite decking product which are fast and easy to install. Unique grid patterns allow for ease of layout and ultimate versatility – resulting in beautiful exteriors. Ideal for surface application on patios, verandas, rooftops and virtually any level surface, the tiles do not require any special tools to install – it is as simple as snapping them together. Available in 12” by 12” (30.48 x 30.48 cm) squares and developed with Snap-To™ technology.

Accessories

Matching railing system and accessories are the perfect complement to a LifeCycle® deck.

2" x 4" Board

Actual Dimensions: 1.5" x 3.5"

(3.81 x 8.89 cm)

Length: 12 and 16 feet

(3.66 and 4.88 m)

2" x 6" Board

Actual Dimensions: 1.5" x 5.5"

(3.81 x 13.97 cm)

Length: 12 and 16 feet

(3.66 and 4.88 m)

Bull Nose / Edge Trim

Actual Dimensions: 0.75" x 2.0"

(1.90 x 5.08 cm)

Length: 12 feet (3.66 m)

Trim Board

Actual Dimensions: 0.67" x 11.25"

(1.70 x 28.57 cm)

Length: 12 feet (3.66 m)

4" x 4" Post

Actual Dimensions: 4.265" x 4.265"

(10.83 x 10.83 cm)

Length: 51 inches (129.54 cm)

Baluster

Actual Dimensions: 1.5" x 1.265"

(3.81 x 3.21 cm)

Length: 38 inches and 12 feet

(95.52 cm and 3.66 m)

Magnum Railing

Actual Dimensions: 2.92" x 3.95"

(7.42 x 10.03 cm)

Length: 6 feet (1.82 m)

Post Collar

Actual Dimensions: 5.5" x 5.5"

(13.97 x 13.97 cm)

Post Cap

Actual Dimensions: 5.5" x 5.5"

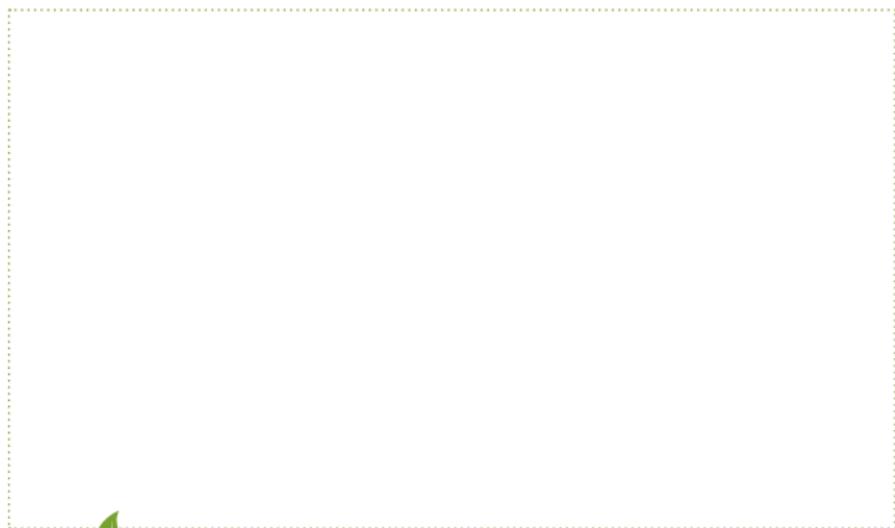

(13.97 x 13.97 cm)
